

The UK; Coastal Awareness

1. Name the landforms shown.

(3 marks)

2. Name the landform or feature to match each description.

(5 marks)

Description	Landform
The edge of a country where the land meets the sea.	
A beach made of stones and pebbles.	
A place where seagulls can take shelter from the wind.	
A tall, rocky feature found on some coastlines.	
A safe place to walk in coastal areas.	

3. Coastal Landforms

(6 marks)

(a) What is the name of the process that shapes the coastline and its landforms?

(b) Name three landforms created by the power of the sea.

(c) Give two reasons why you should walk on footpaths in coastal areas.

Reason 1	Reason 2
