Dear Year 6 Pupils

As we approach the end of the school year you will all be thinking about your move to secondary school. This is a really exciting time for you all, but you might also feel a bit nervous about the change.

Your Primary / Junior school will have been helping you to prepare for this since September and I know that your new school have been providing virtual support to welcome you to your new school.

In preparation for and during a race Usain Bolt tells himself, "Don't panic. Take your time, chip away and work your way back in". These might be helpful for you as you prepare for the transition to your new secondary school.

I do appreciate that you have not had the usual opportunities for all the celebrations which your school will have planned for you, but don't let that stop you from remembering all that you have achieved there.

We are very proud of each and every one of you, and how well you have coped during this pandemic.

In the words of Michael Phelps,  
*"There will be obstacles. There will be doubters. There will be mistakes. But with hard work, there are no limits."*

We wish you every success for the future and encourage you to make the most of the opportunities you will have in your new school.

Yours sincerely

**Shelley Davies**  
Interim Director of Education

**Robert Hendrson**  
Executive Director  
Children Families Education
