WHAT WE'RE LEARNING

Rights Respecting School-Article 24

This term the school council are focusing on Article 24- the Right to access to clean water. The children have learnt about how water is used in different countries and ways that we can continue to save water in this country. The school council ran sessions helping children to make pledges about ways they could try to save water in school.

Thank you to everyone who has supported pupils by encouraging them to bring water only into school.
